FOR IMMEDIATE RELEASE

Cleveland, OH-based ALEGO HEALTH named to the 2014 Inaugural Crain's Cleveland Business FAST 50 Award list of fastest growing companies in Northeast Ohio

Healthcare IT services company ALEGO HEALTH selected as an Inaugural Member of the 2014 award to identify the fastest 50 revenue growth companies in Northeast Ohio.

WESTLAKE, OH, September 22nd, 2014- Alego Health's Jonathan Levoy, VP of Business Development & Technology, announced today that Alego Health was named to the 2014 Inaugural *FAST 50* Awards presented by Crain's Cleveland Business Magazine. "We are extremely honored to be part of this decorated group of companies, especially being one of the Inaugural Class members for this award is an incredible honor. It is a true testament to our employees, clients and partners that we have sustained this success while continuing to grow as we have" said Mr. Levoy.

Crain's FAST 50 recognizes the entrepreneurial spirit, innovative business tactics and skyrocketing revenue growth of the 50 fastest-growing privately-held companies in Northeast Ohio. The FAST 50 have been selected based on a combination of revenue growth and total revenue. The rankings will be published in the November 10 issue of Crain's Cleveland Business. The award comes on the heels of being named to the 2014 Inc. 500|5000 award for two straight years and being named to the 2014 Weatherhead 100 Award for the fourth straight years. "We have really had a mind-blowing few years with all of these awards and recognition. But our focus is even sharper now that the expectation level has risen for our organization," stated Levoy. "Our commitment to our clients and our employees is what drives our success. We can never lose sight of what got us here, and what it will take to move our company up these lists by servicing our clients at the highest levels possible."

Mr. Levoy explained that Alego Health is continuing its growth through sales initiatives that will expand Alego Health's national reach and product offerings. "Our goal has always been to build a strong local and regional foundation, then to expand our services throughout the US. We have seen some great traction nationally and are moving into new markets every month. We are very proud of our track record, services, and client satisfaction results. This has undoubtedly led to the awards that we have received."
